CHRISTOPHE GEVERS

Christophe Gevers (1928-2007) His oeuvre manifests itself in almost the entire interior landscape, ranging from total offering for restaurants, shops and private assignments to designing individual objects for the industry.

His designs came from scale model to finished product in his studio, where he preferred natural materials that he managed to work as a true craftsman.

The combination of his long experience, spread over the entire design sector and his extraordinary knowledge of materials, which he managed to implement in a contemporary and idiosyncratic design, makes Christophe Gevers a (forgotten) master who deserves a legitimate place in the history of Belgian design in the 20th century.
